

Diploma in Beauty Therapy

1 Academic Year Program | 10 Modules

Starting from 17-18 December, 2022

The Professional Diploma in Beauty Therapist will be provided and accredited by the University of Sharjah. It will guarantee license from MOH& DHA.

The diploma-training program is for the Health sciences graduates, and non-medical background who desire to build up and improve their knowledge and skills in the field Beauty therapy. The program has been designed to introduce participants to safe practice within a controlled workshop environment. The program will help to understand the concept of beauty, golden ratio and ethics about this practice. It will provide the knowledge and how to use the latest clinical research into clinical practice.

Aim

The aim of this program is to provide high quality training to the participants to ensure safe practice of basic non-surgical techniques according to the latest international guidelines and techniques. This will allow participants to acquire basic level skills in Beauty therapy including hands-on simulation-based training on models, demonstration on volunteer and assisting in various clinical and non-surgical procedures.
